

Announcement of humanitarian specialty package for Disaster Relief efforts made by international Non-Government Organizations ("NGOs"). Program is being launched at DIHAD humanitarian event in Dubai, UAE.

(1888 Press Release) [April 03, 2009](#) - Fort Lauderdale, Florida -- Overseas Lease Group, Inc. (OLG) headquartered in Fort Lauderdale, Florida, USA introduces their Lease, Stock & Deploy disaster preparedness and management packages at DIHAD 2009, April 7-9, Dubai, UAE.

After working with various humanitarian organizations and relief product suppliers, OLG has developed a distinctive leasing package program that provides NGOs the ability to choose from vehicles, transitional shelter, hard wall shelter, water purification devices, mobile hospitals, and disaster recovery camp kits as relief supplies within a comprehensive lease structure. The Lease, Stock & Deploy Package Program was designed to offer a menu of leasable assets needed to provide relief following a disaster. The NGOs have the ability to stock high price relief items and pay for the combined cost of these goods on a monthly basis. The packages are based on 12 to 48 month lease terms depending on length of time that meets the NGOs specific requirements, explains Tracy Badcock, VP of Marketing and Communications.

With the DIHAD 2009 theme "Empowering Communities: From Disaster to Development, OLG looks to launch the Lease, Stock & Deploy Package option to support all the organizations striving to make a difference in disaster relief and the community development that ensues. Financing the relief supplies can be a means to having more provisions and equipment readily available when tragedy occurs and populations are devastated. Ms. Badcock adds, "Our goal is to support the disaster preparedness plans on a global, regional and local level so that more lives may be saved with prompt response."

Overseas Lease Group, Inc. is a vehicle, equipment, shelter, and Disaster/Refugee camp leasing business. The company provides leasing solutions, with the support of securing financing for its clients' projects. OLG specializes in serving clients operating in disaster-inflicted regions, areas of conflict as well as post-conflict environments worldwide.
